

Fleet Maintenance Software

⊕ **Powerful - Versatile - Economical**

Join the thousands that have discovered a better way to manage fleet maintenance. Whether you have 5 service vans, 50 patrol cars, or 500 mixed assets, FLEETMATE will help you maintain your fleet properly. This is full-featured fleet maintenance software that helps you keep PM up to date, and it keeps your service, fuel & expense data organized and easy to access. All at a cost that makes sense. It's powerful, versatile, economical fleet maintenance management software.

Download it NOW and try it FREE for 30-days.

It's often difficult to determine if a product will meet your business requirements and fit well within your operation unless you can try it first. We understand, and that's precisely why we offer FLEETMATE as a free download. The unlicensed software is the actual commercial product, and it will remain fully functional for 30-days. This way, you can determine first-hand whether FLEETMATE will be a good choice for your business.

FLEETMATE comes with some sample data pre-loaded. But feel free to enter your own fleet data, so that you can see exactly how things work. All data that you enter remains in your database, and is yours to keep.

As you evaluate FLEETMATE, visit the FLEETMATE Website for **Instructional Videos** to help you get started. And view and print the **FREE Customer Guides** on the Support page. These resources will help you get up-and-running quickly, and will explain the many features offered by FLEETMATE.

Visit us on the Web to learn more and to download your FREE 30-Day Trial at: www.FLEETMATE.com

A Low-Cost Fleet Solution

Per User License

Capacity	Price
Up to 50 Assets	\$399.95
Up to 100 Assets	\$599.95
Unlimited Assets	\$799.95

Pricing is in U.S. Dollars. Prices indicated are for one (1) registration key. The number of registration keys that you need is determined by the number of concurrent users you need to support.

Office License

Capacity	Price
Up to 50 Assets	\$999.95
Up to 100 Assets	\$1999.95
Unlimited Assets	\$2499.95

UNLIMITED NETWORK USERS

Pricing is in U.S. Dollars. An Office License provides you with the flexibility to use FLEETMATE on any number of PCs throughout your entire organization for one fixed fee. And you are licensed for the optional Report Designer and Work Order Retrieval products at NO ADDITIONAL CHARGE. Simply select the asset capacity you need.

MULTI-USER NETWORKING

FLEETMATE provides network capability built-in. There is no additional charge.

WIDE AREA NETWORKING

FLEETMATE is compatible with remote access systems like Terminal Server, Citrix®, and GoToMyPC®.

Maintenance Management Software

⊕ Benefits

- **Maximize Uptime:** FLEETMATE helps you become proactive in terms of maintenance, reducing unexpected, costly downtime and repairs. That saves your organization money by helping to keep your fleet on the road, where it belongs.
- **Extend Useful Asset Life:** Whether it's a box truck or a lift-truck, proper preventive maintenance performed consistently helps you extend the life of your vehicles and other fleet assets. That can lead to savings over the long term.
- **Improve Operational Efficiency:** You can reduce much of the paper you now use. Reducing paper also reduces time preparing and retrieving physical documents, and eliminates lost and/or misplaced information.

FLEETMATE enables you to establish a **proactive** approach to fleet maintenance management, without spending hours a day trying to do it. It helps you avoid costly break-fix scenarios and downtime due to neglected vehicles and equipment, by providing **PM Reminders** based on your maintenance requirements. And it serves as a ready resource for maintenance history, fuel usage, and expense information associated with operating and maintaining your fleet.

FLEETMATE includes over 150 reports to help you manage your fleet maintenance and expenses. And it helps raise awareness of the importance of maintaining fleet assets properly. As one small example, a report entitled "**Vehicles Not Serviced in a Specified Period**" is included. You specify the time period (e.g. 30 days), and the system instantly lists all assets that have not been serviced during that period.

The FLEETMATE product can help you significantly reduce your reliance on pen and paper. Business reports can be viewed and printed, but can also be exported and emailed to associates and employees within your company. Likewise, PM Reminders can be e-mailed to help ensure that your fleet assets are serviced on time.

Value that's Hard to Beat

FLEETMATE is a fleet maintenance management product that gives you a great combination of features, ease of use and sensible pricing... that's **Value**.
